Education

Narula Institute of Technology — **2022 – 2026**
B.Tech in Computer Science and Engineering (AI & ML) — **CGPA: 8.45**

Burdwan Town School — **2021**
Higher Secondary – W.B.C.H.S.E — **79.6%**

Kurmun High School — **2019**
Secondary Education – W.B.B.S.E — **89%**

Experience

MERN Stack Development with AI Integration – Euphoria GenX — **Jun 2025 – Aug 2025**
MERN Stack Intern / Trainee — **Certificate**

- Completed industry-oriented training in full-stack web development using the MERN stack.
- Developed REST APIs and implemented authentication mechanisms for web applications.
- Integrated AI-based functionality into full-stack applications.

Projects

AI-Powered Text-to-SQL System — **GitHub** **Live Demo**

- Built a RAG-based Text-to-SQL application using Streamlit, Gemini API, ChromaDB, SQLGlot, and SQLite.
- Integrated Gemini to convert natural-language questions into SQL queries and SQLGlot to validate generated queries before execution.
- Designed the system to support uploaded database files and database-specific metadata collections.

Nexora AI – AI-Powered Content Creation Platform — **GitHub** **Live Demo**

- Developed a full-stack AI platform for article writing, blog title generation, image generation, image editing, and resume analysis.
- Built using React.js, Vite, Tailwind CSS, Node.js, Express.js, Clerk authentication, and Gemini API.
- Implemented protected routes, authentication, usage limits, AI content generation, and database-backed application features.

Environment Degradation & Jungle Mahal Development — **GitHub** **Live Demo**

- Developed a MERN-based web platform focused on environmental degradation and development initiatives in the Jungle Mahal region.
- Built interactive frontend components and backend services to present environmental information, regional development data, and project-related resources.
- Implemented a centralized web application structure to organize regional environmental content and improve accessibility of project information.

Technical Skills

Languages	C, Java, Python
Web & Frameworks	React.js, Next.js, Node.js, Express.js, Django, Tailwind CSS
Databases	MySQL, MongoDB
AI / ML	Gemini API, RAG, TensorFlow.js
Developer Tools	Git, GitHub, VS Code
SAP	ABAP Cloud, RAP, CDS Views, OData
Core Concepts	Data Structures & Algorithms, OOP, DBMS, Operating Systems

Certifications

SAP Certified – Back-End Developer - ABAP Cloud — **Certificate**

Fundamentals of Artificial Intelligence – NPTEL — **Certificate**

Internet of Things (IoT) Development – Ardent Computech Pvt. Ltd — **Certificate**

Achievements

Poster Competition – IE(I) Student Chapter, Narula Institute of Technology — **Certificate**

SciQuest 2K24 – Technical Quiz Competition — **Certificate**
